THE ART JOURNAL
FOR 1879.

THE ART JOURNAL contains features that render it invaluable to artists, amateurs, and all persons interested in PAINTING, SCULPTURE, ARCHITECTURE, DECORATION, FURNISHING, ORNAMENTATION, ENGRAVING, ETCHING, or DESIGNING in any of its branches. It is a record of Progress in the Arts; it affords instruction to the amateurs and students; it furnishes designers with innumerable suggestions; it gives examples of what is doing in Europe and America in the different arts; it is a choice gallery of engravings, executed in the best manner, on both steel and wood. Each number contains three Steel Engravings, in many instances a single plate being worth more than the price of the number.

THE ART JOURNAL contains the Steel Plates and Illustrations of the LONDON ART JOURNAL (the exclusive right of which, for Canada and the United States, has been purchased by the publishers), with additions relating to American Art and American topics.

ART PUBLICATIONS.

ART AND ARTISTS IN CONNECTICUT.

By H. W. FRENCH. Full gilt, 8vo. \$3.75.

This elegant volume comprises sketches of nearly two hundred artists, whom Connecticut claims either by birth or adoption. The work is beautifully illustrated with full-page and letter-press designs, comprising portraits of artists, engravings of their work, and in many cases original designs, specially prepared for this book.

ELEMENTS OF DESIGN.

For the use of Teachers and Parents. By Dr. WILLIAM RIMMER, Boston Art School (Museum of Fine Arts). 48 full-page illustrations. Cloth. Net, \$2.00. By mail, \$2.25.

Dr. Rimmer's Manual exemplifies a method of teaching drawing founded on the idea that it does not signify merely an imitation of forms, but that it aims mainly to reproduce expression. It is a bold and attractive Drawing-Guide, which, taking the human form as a model, gradually unfolds from the simplest lines to the full anatomical subject, the elements of figure-drawing, in all their variety of limb, feature, muscle and form, rendering easy of comprehension every intervening step. It is a work invaluable to the student and the artist.

ART: ITS LAWS AND THE REASONS FOR THEM.

Collected, Considered and Arranged for General and Educational Purposes, by SAMUEL P. LONG. 12mo. Cloth. \$2.00.

It is a very handsome book, with steel-plate illustrations; a work of decided merit, and a pleasant guide in the search for the good, the beautiful, the true.

THE PRINCES OF ART.

Translated from the French, by Mrs. S. R. URBINO. 12mo. Cloth. \$2.00.

It is a pleasant book, designed not for the professional or amateur only, but for popular enlightenment about those men who, with the *Brush, the Chisel, or the Graver*, have achieved an immortality of fame.

PRIMER OF DESIGN.

By CHARLES A. BARRY, late Supervisor of Drawing, Boston Public Schools. 75 illustrations. Net, 75 cents. By mail, 90 cents.

"The primary aim of this beautifully illustrated primer is to give aid to drawing-teachers. The principles are illustrated in a way to make them intelligible and useful to every one teaching design."—*New-England Journal of Education*.

Brentano's Aquatic Monthly
AND SPORTING GAZETTEER.

Number One of the new series was issued on the 1st of April. The Monthly is devoted to Yachting, Rowing, Canoeing, Athletics, the Turf, Baseball, Cricket, Rifle, Polo, and kindred pastimes by field and water. Of its old unequaled staff of contributors Col. Stuart M. Taylor, "Windward," Prof. William Wood, "Xanthia," "Tulipa," "Coxswain," "Forty," "Cuttyhunk," "Rus," "Devoted Oarsman," "Knickerbocker," "Long Tom," etc., will again salute its readers, reinforced by several new ones of equal merit. Lovers of out-door sports are reminded that this monthly solicits their support as the only magazine devoted exclusively to the record and promotion of this country's pastimes. Correspondence solicited from all sections of the country where outdoor sports are participated in. Twenty pages are added to its size. Editor, Mr. Charles A. Peverelly. Liberal terms made, with clubs of ten or more. Terms \$4 per annum in advance. Single numbers 40 cents. All correspondence must be addressed to Brentano's Literary Emporium, where the subscription books are now open. Specimen copies sent upon the remittance of 40 cents. Trade supplied by the American News Company.

AUGUST BRENTANO, Jr., Publisher,
No. 39 Union Square, New-York.

"The periodical is well suited to the specialty for which it is designed, and deserves a wide circulation among the lovers of out-door sports.

"The veteran Charles A. Peverelly, who has devoted his best years to the service, continues to edit the *Monthly* with his usual ability. Everybody who is interested in the favorite pastimes should subscribe to it."—*N. Y. Tribune*.

"Mr. August Brentano, Jr., of the favorite and extensive literary emporium, No. 39 Union Square, will hereafter publish that popular magazine known as BRENTANO'S AQUATIC MONTHLY AND SPORTING GAZETTEER, which periodical is devoted exclusively to the interests of those identified with all sports by field and flood."—*Commercial Advertiser*.

"Its nautical correspondence and articles have the true aquatic ring, and are as salt and breezy as the ocean itself."—*Boston Journal*.

"It comes to the front in lively fashion, and contains well written papers and carefully compiled records on various matters of interest to yachtsmen, as well as on boating, polo, the turf, the kennel, the rifle, pedestrianism, cricket, baseball, and sports generally. There is a steel engraving of Mr. Astor's yacht *Ambassadors*."—*New York Herald*.

L'Art.

The Great International Review, illustrated with Etchings after the most famous painters of all nations. Four large folio volumes per year. Subscription reduced to \$32 per annum, payable on delivery of each quarterly volume.

OPINIONS OF THE PRESS.

"Nowhere but in Paris could such a Review be produced every week as *L'Art*, so magnificent in every respect,—paper, typography, illustrations, and, above all, so many-sided in its view of art, and so abundant and interesting in its information. . . . It is simply the cheapest and the best thing of its kind. M. Véron seems, at any rate, to have solved the problem of combining excellence with cheapness. . . . While *L'Art* is conducted in this style, the editor may feel quite secure that France will not lose that artistic supremacy she has long held."—*London Times*.

"It would be easy and pleasant to go on discoursing about the pictures in *L'Art*, a paper which is so full of good, sober, and just criticisms, trustworthy news about art, and designs not otherwise to be obtained by most people."—*Saturday Review*.

"The new volume of *L'Art* sufficiently manifests the success of a very valuable and interesting publication. . . . There is no other journal in existence which so happily and skillfully combines the labors of artists and authors, which does not subordinate art to letters, or letters to art, but permits them to go hand in hand, not one before another. . . . In brief, this grand folio volume of *L'Art* abounds in matters of interest to all readers and students of æsthetic and cultivated taste."—*The World* (London).

"There is some monotony in praising each successive portion of a periodical as it appears with an absolutely equal cordiality; but the evenness of merit in *L'Art* makes this uniformity of commendation a duty."—*The Nation*.

"America is so destitute of illustrated works which can at all compare with *L'Art*, that she cannot do better than study and enjoy this French publication. Certainly there is no other means by which so many valuable pictures can be obtained at so small a price."—*The Christian Union*.

"Sumptuous in paper and type, lavish in illustrations, and with critical and explanatory text of singular merit; the most famous of modern art journals."—*N. Y. Times*.

TYPE METAL RELIEF PLATES.

A Superior Substitute for Wood-Cuts

AT MUCH LOWER PRICES.

Persons desiring illustrations for Books, Newspapers, Catalogues, Advertisements, or for any other purposes, can have their work done by us promptly and in the best style.

Our Relief Plates are engraved by photo-chemical means; are mounted on blocks type-high ready for use on any ordinary press, and will wear longer than the common stereotype plates. They have a perfectly smooth printing surface, and the lines are as deep, as even, and as sharp as they could possibly be cut by hand.

Electrotypes may be made from them in the same manner as from wood-cuts.
Copy.—The engraving is done either from prints or pen-drawings. Almost all kinds of prints can be re-engraved directly from the copy, provided they be in clear, black lines or stipple, and on white or only slightly tinted paper. Pen drawings, suitable for engraving by us, must be made with thoroughly black ink, on smooth, white paper. They should usually be made twice the length and twice the width of the plates desired. When such drawings cannot be furnished us, we can produce them from photographs, pencil sketches, or designs of any kind accompanied with proper instructions. Photographs taken in the usual way, and of any convenient size we can use.

Change of Size.—Wood-cut prints of the coarser kind may often be reduced to half their lineal dimensions, while others will admit of very little reduction, and some of none at all. Most lithographic and steel-plate prints will admit of no reduction. Very fine prints of any kind may be enlarged moderately without detriment. Any prints which cannot be satisfactorily reduced or enlarged may be re-drawn and thus brought to any desired size. In all cases of reduction and enlargement, the relative proportions remain unchanged.

Proofs.—Whenever desired, we will furnish tintype proofs of the drawings made by us, for approval or correction, before engraving. A printed proof is furnished with each plate.

Time.—We cannot usually engage to fill an order for a single plate in less than from three to six days; larger orders will require longer time.

Estimates will be promptly furnished when desired. That these may be definite and correct, the copy to be used—whether print, photograph, sketch, or drawing—should always be submitted for our examination, together with a distinct statement of the size of plate wanted, and of any other details to be observed.

Terms.—To insure attention, all orders must be accompanied by an advance of half the price charged, the balance to be paid on delivery.

Electrotyping and Printing.—We have recently added to our establishment excellent facilities for making electrotypes, and also five power presses specially fitted for printing plates of all sizes in the finest manner.

Artificial Light.—We have just introduced this most important facility, which enables us to prosecute our work in cloudy weather, and to push forward hurried orders in the night.

References.—Our plates are now used by the principal publishers in this city, and by most of the leading houses in every State in the Union.

Our General Circular contains a few specimens of the various kinds of our work, and will be sent on receipt of stamp. We have just prepared five special circulars, as follows:

1. Portraits and Figures.
2. Buildings and Landscapes.
3. Machinery and Apparatus.
4. Maps, Autographs, and Ornamental Lettering.
5. Reproductions from Wood-Cuts, Steel-Plate Prints and Lithographs.

These will be furnished at ten cents each.

ARCHERY FOR THE MILLION.

Among the many out-door recreations which have become popular, no other has within a year past attracted so much attention as Archery. It is not remarkable that an open-air exercise, so full of interest, and calling for all the skill of the parties engaging in it, should be entered into with great enthusiasm, nor that so many are ready to own "The Witchery of Archery." So numerous have been the letters from our readers with reference to this subject, and so manifest the desire to obtain, at a moderate price, an outfit that would enable a family group, as well as a company of other friends, to engage in this health-giving and pleasant pastime, that we have been on the look-out for the best thing, and we have now made such exclusive arrangements with Messrs. Wright & Thorne, the patentees, that we can supply our correspondents and the trade with a new and improved style of Archery Goods, which are evidently destined to be the leading line in the market, and at a range of prices which will accommodate all—the list presenting outfits from the lowest price up to the most elegant style of Self-Lance Wood, highly finished and extra heavy Bows, and also Arrows, Targets, etc., to match.

Target Stand.

Target Stand, Folded.

By its peculiar construction it permits the Arrow to pass through fixed bearings in the center of the Bow (without touching the wings), on a direct line with the center of the tips, thus preventing the curve in the starting of the Arrow, caused by the string moving toward the center while the Arrow starts from the side of the Bow. This we believe has never before been achieved.

A person will much sooner become proficient, as the most unpleasant part is overcome, viz. : how to hold the Bow and Arrow with the bow-hand, as the Bow holds the Arrow. The Bows are much finer in appearance, and are more durable than others. The patent Arrows offered with the patent Bows, the wings of which are made of fine hair cloth prepared specially for this purpose, are so arranged that they will guide the Arrow as well and last much longer than any other style. The Target and Stands are greatly improved. The stands are so constructed that they can be folded, which makes them conveniently portable.

The prices of Bows run from \$1 to \$7 each. The Arrows are of various qualities, all serviceable, and cost from \$2.25 to \$6.50 per dozen. The Targets range in price from 90 cents to \$5.50; Target Stands from 90 cents to \$2.75; and Quivers and Belts, Arm-Guards, Finger-Tips, and Bow-Strings, can be had in great variety.

The Bow, strung and in sections.
